

24/7 bistro

Stefano Catenacci, Gastronomic Director for the Nobis group

“Early in the morning... On your way home... Late at night... For a quick lunch... or a glass of wine in the afternoon. It is easy to pop in to 24/7. Whether you simply feel like a snack - or if you prefer to have a meal, want the perfect espresso or have arranged to meet someone after a long day in town.

With 24/7, I have created a place to ‘get together’ in the heart of the city. An informal atmosphere with good food, served quickly – whether it be breakfast, lunch or a late dinner. A vibrant location in the city that has become a major attraction. Call it “fast food” with a golden frame, or a contemporary urban cafe.

It is an art to make a really good sandwich. We know this at 24/7 and we have mastered that art. We put a lot of care into our Panini. All made of freshly baked bread. Our Panini’s are made with carefully selected toppings - provolone, prosciutto and artichoke - to name a few.

Salads, Carpaccio, cold cuts and pasta of different kinds are the base of the ever changing menu of my Italian favorites. It is simple and straightforward but cooked with love and only the best ingredients. Fresh buffalo mozzarella and 36 months aged Parmesan cheese makes it easy to cook simple and quick dishes. I hope they also become your favorites.

24/7 is open around the clock, all year round for guests of Nobis Hotel. If you are not staying at the hotel, you are equally welcome 17 hours of the day.”
